

12 July 1967

Dear Ed:

25X1 I have analyzed the personnel strengths and weaknesses of the 67th RTS based on their evaluation of the qualifications of their people. Even accepting at face value their term "qualified" I do not particularly like what I see and have said so in a letter to [] An informal info copy of the letter is enclosed for your information but briefly it boils down to the fact they are weak in some areas now and by March 1968 will have lost half their people including some of the better qualified.
